

## Environmental Policy of TayChem LLP

Realizing our responsibility to present and future generations,

TayChem LLP prioritizes environmental safety and undertakes the following commitments:

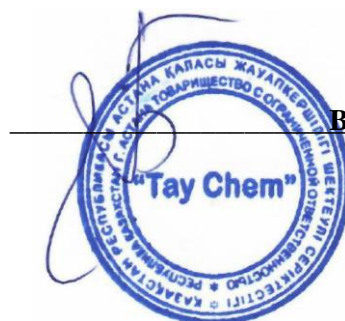

- Comply with applicable norms and requirements of the legislation of the Republic of Kazakhstan, international standards and agreements, GOST R ISO 14001 (ISO 14001), rules of internal behavior of TayChem LLP.»;
- Communicate these rules and regulations to our partners and urge them to follow environmental regulations;
- Ensure both continuous improvement of environmental protection activities and the environmental management system;
- Ensure prevention/minimization of impacts on the environment and public health;
- Implement low-waste and waste-free technologies to reduce environmental pollution based on the latest scientific and technical achievements;
- Implement measures to prevent and eliminate accidental emissions of harmful substances, as well as to eliminate the consequences of pollution;
- Conserve natural resources;
- Regularly assess the environmental status of TayChem LLP, as well as the technical and organizational procedures necessary to identify weaknesses, implement the required measures and document progress made;
- Ensure timely removal of waste from the territory of TayChem LLP to specialized storage sites for such waste;
- Communicate information on accidental releases that may threaten or endanger human life and health or cause harm to human health and (or) the environment to state supervisory and control agencies;
- Promote awareness of each employee of TayChem LLP of his/her tasks, authority and responsibility in the field of environmental protection;
- improve the system of ensuring the competence of personnel in the field of environmental protection;
- Create a creative environment in the team to involve all employees in the implementation of the environmental policy;
- Make every effort to avoid environmental damage through extensive preventive measures.

The management of TayChem LLP is committed to continuously improve environmental performance, allocate the necessary resources and act in accordance with the environmental policy when making decisions.

The management of TayChem LLP intends to strictly follow the Environmental Policy and encourages every employee to do so.
